Ansh Varshney

Data Science @ IIT Madras | Summer Intern @ IIT Ropar | Open
Source Contributor @ ECSoc
Aligarh, Uttar Pradesh, India

Summary

Building intelligent software with data, AI, and open source. Currently pursuing a BS in Data Science at IIT Madras while gaining hands-on experience through a Summer Internship at IIT Ropar and contributing to open-source projects through Elite Coders Summer of Code (ECSoc). Interested in Artificial Intelligence, Machine Learning, and software engineering that creates meaningful real-world impact.

Experience

Elite Coders

Open Source Contributor
July 2026 - Present (2 months)

Technical Innovations Forum

Founder & Community Lead
July 2026 - Present (2 months)

- Founded and currently lead Technical Innovations Forum, a technical community with 50+ members.
- Curate and share AI tools, GitHub repositories, developer resources, APIs, and free learning opportunities.
- Facilitate discussions on AI, open source, software development, and emerging technologies.
- Support members by sharing useful technical resources and developer tools.

Indian Institute of Technology, Ropar

Summer Intern – AI & Open Source
May 2026 - July 2026 (3 months)

Selected for Summer Internship 2026 at the Vicharanashala Lab for Education Design (VLED Lab), IIT Ropar.

Working on real-world open-source projects focused on AI and technology-based solutions for India-centric problems. Collaborating with mentors and

developers on live projects while gaining hands-on experience in software development, problem solving, and teamwork.

Perplexity

Perplexity Campus Partner

August 2025 - November 2025 (4 months)

- Selected as a 2025 Perplexity Campus Partner to drive AI adoption and promote the Comet browser within the campus community.
- Collaborate with the Perplexity team and fellow Campus Partners on marketing campaigns and community engagement.
- Create educational content, gather user feedback, and contribute to increasing awareness and adoption of Perplexity's AI products.

Education

Indian Institute of Technology, Madras

BS Data Science and Applications, Data Science · (2024)
